EDUCATION

Graduate Certificate - Data Analytics for Business Decision Making 2025

Durham College, Oshawa, ON

Graduate Certificate - Artificial Intelligence 2024

Durham College, Oshawa, ON

Bachelor of Technology - Computer Science & Engineering 2018 - 2022

Maharshi Dayanand University, HR, India

SKILLS

Banking & Finance: Financial Reporting & Analysis, KPI & Performance Monitoring, Risk & Exception Analysis, Loss Prevention & Recovery, Operational Controls & Documentation, Process Optimization, Data Governance & Accuracy

Programming: Python (Pandas, NumPy, Automation), SQL/MySQL, TensorFlow

BI Tools: Power BI & Tableau (Dashboards & Reporting), Looker, MS Visio, Microsoft Excel (Advanced formulas, Pivot Tables)

Relevant Courses: Machine Learning, Natural Language Processing, Probability & Statistics, Data Analysis and Data Mining, Data Structures, Database Management System, Big Data Technologies, MERN Stack, MS Office

WORK EXPERIENCE

Claims Associate July 2024 – Apr 2026

Walmart Canada Toronto, ON, Canada

- **Process financial claims**, vendor recoveries, and **return discrepancies** while maintaining **audit-ready documentation** and compliance with operational controls.
- **Consistently exceeded the monthly CVP target of 20%**, maintaining an average CVP of 22–25% through accurate verification and recovery processes.
- Contributed to the team earning **Highest CVP% of the Year recognition** in 2024 and 2025.
- Supported loss prevention and reconciliation processes, helping achieve **Highest Shrink Reduction recognition** in 2024 and 2025.

Data Analyst Dec 2022 – Nov 2023

Polstrat Communications Pvt Ltd Noida, UP, India

- Analyzed large datasets to support **trend analysis, forecasting, and data-driven decision-making** for internal stakeholders.
- Automated data extraction and preprocessing pipelines using Python, **improving team operational efficiency by ~80%**
- **Built centralized data servers** and structured datasets to enable quick access to project data across teams.
- Optimized automation scripts to **reduce data processing time by up to 75%**, significantly accelerating reporting workflows.

Software Engineer (Contractual) Feb 2019 – Aug 2019

Connexio Inc. (now WayLit) St. Louis, MO, USA (Remote)

- **Developed customer-centric web applications** using Django, PostgreSQL, and JavaScript, **reducing immigration logistics management time by 40%**
- Built and optimized **Django models**, views, templates, and **ORM queries**, improving application performance and data handling
- Automated deployments with **GitLab CI/CD** and **Docker** and deployed containerized applications on AWS, **reducing deployment time by 50%**
- Implemented secure authentication using **OAuth 2.0** and **Amazon Cognito**, and improved reliability through pytest/playwright testing, documentation, and code reviews, **reducing bugs by 60%**
